The foregoing report of school expenses is here given as no itemized report was made by the school directors at the end of the school year July 1, 1915.

School Report

To the Auditors of the town of Weathersfield:

Complying with the present school law, the Board of School Directors herewith submits its annual report of expenditures for the year preceding, together with the statement of the amount of school money on hand and the estimated amount needed for the coming year.

As will be seen from the itemized statement herewith submitted, the total expenditure for the year preceding February 1, 1916, is \$6,541.17. Of this amount \$3,561.77 applies to the present school year July 1, 1915, to Feb. 1, 1916.

The amount of funds available for the period from February 1, 1915, to the end of the present school year was:

Balance on hand February 1, 1915	\$1,870 21
80% of 1915 grand list	5,150 63
Rebate from state	2,175 82
Tuition from town of Springfield	30 00
Received for stove, etc.	2 50
	<hr style="width: 100%; border: 0.5px solid black;"/>
	\$9,229 16
Orders drawn February 1, 1915, to February 1, 1916	6,541 17
	<hr style="width: 100%; border: 0.5px solid black;"/>
Available for remainder of present year	\$2,687 99

Which amount we believe will be sufficient and leave a small margin to the credit of the town.

Progress has been made in the improvement of the school-houses. The furnace and ventilating system installed at Ascutneyville is in accordance with the requirements of the State Board of Health and is working well. The present needs in the line of repairs are improved toilet rooms at Ascutneyville, improved lighting facilities and better blackboards at the Bow,

and extensive repairs on the Marsh schoolhouse if the school at this place is to be continued. Several of the houses also need modern adjustable seats and desks.

Your Directors recommend in the interest of economy the closing of the school in the old No. 11 District. It would have cost the town two hundred dollars less the present year to have transported these scholars to Amsden where there is ample room for them all.

We recommend also the transporting of the pupils in the Marsh school to Ascutneyville, not in the interest of economy but in the interest of more efficient schools.

Your Directors recommend an appropriation of 75% of Grand List for support of schools for the school year 1916-17.
